EXPERIENCE

FRONTEND DEVELOPER

Freelance / Personal Projects - Apr 2025 - Present

- Converted unresponsive websites into fully responsive designs, ensuring seamless functionality on desktop, tablet, and mobile devices.
- Created e-commerce stores using WordPress and WooCommerce, including product setup, payment integration, and custom store design.
- Collaborated with UI/UX designers to build responsive, user-friendly web pages and reusable Next.js components.
- Implemented SEO best practices and focused on accessibility and performance to enhance site visibility and user experience.
- Leveraged AI tools (Cursor, Claude) to accelerate development, improve code quality, and streamline documentation.

FRONTEND DEVELOPER

Agilteem | Nov 2024 - Apr 2025 · 6 months

- Fixed styling bugs in Angular projects and converted Figma designs into pixel-perfect, responsive web pages using Tailwind and Bootstrap.
- Collaborated with designers and developers to create intuitive, engaging user experiences.
- Utilized Strapi headless CMS to manage and deliver content, improving flexibility and scalability of front-end applications.

PROJECTS

Arab Innovation Hub : A comprehensive platform connecting Arab entrepreneurs and digital product creators with investors, collaborators, and the broader tech community. Features multilingual support, cultural considerations, and region-specific market insights.
